NARRATIVE Driver of Unit 1 stated that she had been traveling in the right hand lane of Southbound SR 79, and attempted changing lanes into the left hand lane. She reports feeling her vehicle sliding, and then closing her eyes. She reports keeping her eyes closed until the vehicle stopped moving, but recalls feeling the vehicle strike the center concrete median three (3) times. This recollection is consistent with three separate point of contact along the wall with paint transfer consistent looking with her vehicle. Unit 1 came to final rest facing in a north-easterly direction, in the right hand lane. It appears that Unit 1 had just passed by the start of the off-ramp to W. Main Street when the first contact with the concrete median is seen. Weather and roadway conditions: light steady snow was occurring, with both lanes visually distinguishable, and the roadway was dark but lighted with spaced poles along the median. There was a very small amount of snow in the area of the centerline, and the City salt trucks were out covering the roadway. Temperature at the time of crash was approximately 30 degrees.	Overhead Light S/B SR 79 Shoulder Not To Scale
